

## Boeckmann Horse Float Silent Auction – 2017 Sydney CDI Fundraiser

Boeckmann have been building horse transport vehicles in Germany since 1956. Since that time they have been the clear market leader in Europe with innovations and patents that are the envy of competitors. Every new development is thoroughly tested with the family's own horses. A product must be good enough to meet the requirements of the family and their horses before it enters serial production.

All Boeckmann horse floats offered in Australia are completely built in Germany with only the wheels added here. Safety for horse and human and ease of handling are our number one priority and the superb quality of the renowned German engineering ensures a long and trouble free working life.

Boeckmann, the German float built especially for warmblood horses and the preferred float for famous stallions like De Niro, Fidertanz, etc
